

Dear Valued Customer,

Did you know that the Quote Module (QOT) will display the last time a part was purchased to help users decide which pricing method to use (standard cost, weighted, or new pricing)?

By scrolling to the right on the "Material 1" tab users can see the last time a part was purchased (as of the date the quote was last refreshed). With this information they can better decide whether to send the part out for new pricing, or use one of the other pricing methods available in ManEx's quoting module. By using existing information users should be able to complete a quote in less time.

To learn more of the great features in the module, please refer to the <u>Quote Management</u> Manual.

This is just another way we are developing ManEx with YOU in mind.

Sincerely,

David Sharp

David Sharp Regional Vice President

ManEx, Inc. 7282 55th Ave. East PMB 162 Bradenton, FL 34203
