

ManEx Minute

Take a minute to save time with ManEx.

Dear Valued Customer,

Did you know that ManEx allows users to adjust the Min Order, Min Multiple, and the Purchase Lead Time right in the Purchase Order (PO) module?

In order to use an ERP to it fullest, it must contain accurate and up-to-date information. To assist with this task, ManEx gives users the ability to update a component's order quantities and lead time right in the PO Screen. As a buyer receives this updated information from the supplier, they are able to update ManEx to ensure they are always working with the latest information.

To learn more of the great features in the module, please refer to the [Purchase Order Management](#) Manual.

This is just another way we are developing ManEx with YOU in mind.

Sincerely,

David Sharp
