ManEx Minute

Take a minute to save time with ManEx.

Dear Valued Customer,

Did you know that ManEx has added the ability to attach related documentation to specific modules throughout our tailored solution?
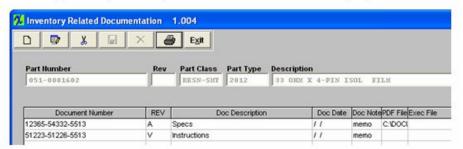

Related Documentation   Contract Manufacturers have to support and maintain multiple sources and types of information. With customer created documentation, manufacturer drawings, internally generated process instructions, and more it can be a challenge to store, distribute, and update the numerous files and file types.

For this reason, we created the "Related Documentation" object and are integrating it into several modules throughout ManEx. Currently, users are able to attach related documentation in the QOT, ICM, PDM, PO, EBD (ECO), and PO receiving modules.

Because ManEx uses the native application for viewing, the attached files can be in almost any file format (Excel, Word, PDF, PPT, JPG, CAD, etc). This capability removes the requirement for hard copy files and places this updated critical information at the user's fingertips.

Inventory Related Documentation 1.004

				Exit

Part Number	Rev	Part Class	Part Type	Description
051-0001602		RESN-SMT	2012	33 OHM X 4-PIN ISOL FILM

Document Number	REV	Doc Description	Doc Date	Doc Note	PDF File	Exec File
12365-54332-5513	A	Specs	/ /	memo	C:\DOC\	
51223-51226-5513	V	Instructions	/ /	memo		

Additionally, users have complete control over the name, revision, and description of the attached files to make it easier to locate and identify the needed files real-time and by multiple employees simultaneously.

This is just another way we are developing ManEx with YOU in mind.

Sincerely,

David Sharp
