

# ManEx Minute

Take a minute to save time with ManEx.

## Dear Valued Customer,

Did you know that ManEx v9.3 gives you the ability to be more selective on which parts and POs to include in the Standard Cost Adjustment process?

Material Cost Adjustment 1.040

Selection Modifications

If Part Material Cost is different from the Weighted Average Price Value by Greater than or Equal to  %  
If Assembly Material Cost is different from the Sum of the Parts Standard Value by Greater than or Equal to  %

Roll up BUY Parts  Do not list items with 0 Inventory and no purchase history for the current year, standard cost will remain unchanged

Allow users to enter in the Weighted Average Variable --- Number of PO 5

Allow users to enter in the Weighted Average Variable --- Number of PO 5

Part Number Range

Enter Start of Part Range	Rev
101-000000	
Enter End of Part Range	Rev
101-999999	

Clear Range Entries

Part Class  
CRP-SMT

Part Type  
0805

Users are able to select the part number range, class, type, and even the number of POs to include in the calculated weighted cost. By allowing users to be more selective on which parts to process, they are able to complete the adjustment process faster and maintain more accurate records.

For more information, please refer to the [Standard Cost Adjustment Manual](#).

This is just another way we are developing ManEx with YOU in mind.

Sincerely,

*David Sharp*
