

ManEx Minute

Take a minute to save time with ManEx.

Dear Valued Customer,

Did you know that ManEx now gives you the ability to restrict how early parts can be received?

It is not uncommon for suppliers to ship against future orders at month's end to improve their sales. Unfortunately, if you receive these parts too early, that will affect your books negatively. Until recently users had to monitor the due dates to ensure parts were not received too early. Now users are able to enter a cutoff point in the purchase setup to prevent the accidental early receipt of parts into ManEx.

If a user does not have permission to receive early parts, ManEx will prevent the user from receiving the parts. If the user does have permission, then they will receive this warning.

By preventing users from accidentally receiving parts too early, ManEx helps you better control your cash flows.

For more information on the 9.3 Upgrade, please refer to the [9.3 update announcement](#).

This is just another way we are developing ManEx with YOU in mind.

Sincerely,

David Sharp
Regional Vice President
