

ManEx Minute

Take a minute to save time with ManEx.

Dear Valued Customer,

Did you know that ManEx v9.3 gives you the ability to view the WIP value by WO with the value and quantity by part number?

In the Inventory Control Management Module, users are able to run the "Inventory WIP Valuation Report by Work Order" to see the WIP value by part for each WO.

Users have the option to specify the Class, WO, part number range, and cost (standard, purchase, and user defined) on the options tab. This facilitates an easier analysis of the WIP value.
