# ManEx Minute

Take a minute to save time with ManEx.

Dear Valued Customer,

Did you know that ManEx gives you the ability to define not only which assemblies are serialized, but at what point in the process they become serialized?

Setting the part as serialized in the Inventory Control Module allows users to set the Work Center ManEx will use to start tracking serial numbers.

For more information on Serial Number Control in ManEx, please refer to the Work Order Serial Number Control Manual.

This is just another way we are developing ManEx with YOU in mind.

Sincerely,

David Sharp
