

ManEx Minute

Take a minute to save time with ManEx.

Dear Valued Customer,

Did you know that ManEx will upload and store the additional information provided by suppliers in the supplier RFQ?

When users send the RFQ generated by the QOT module in ManEx, they are able to upload and track the additional information returned by the suppliers.

This information includes: the corrected part number, alternate part number, alternate manufacturer, quantity on hand, and vendor comments.

Corrected_PN	altpn	aimfg	Vqoh	Comments
Optional Info				
			1000.00	
			5000.00	

The screenshot shows the 'Component Quote Management' interface. At the top, there are buttons for 'Export Supplier Request For Quotation' and 'Request Supplier Quotes'. Below this is a header section with fields for 'RFQ Number', 'Supplier', 'Contact', 'Due Date', 'Date Issued', and 'Status'. The main area contains a 'Part List' table with columns for 'Item', 'Mfg', 'Mfg Part No', 'Class', 'Type', 'Description', 'Status', 'RFQ Source', and 'Parent Part'. Below the Part List is a table with columns 'Corrected PII', 'Alt PII', 'AIMfg', 'VQOH', and 'Comments'. At the bottom, there is a 'Quantity Price Information' table with columns 'Ord Num', 'Corrected PII', 'Alt PII', 'AIMfg', 'VQOH', and 'Comments'. A red box highlights the 'Quantity Price Information' table, and a red arrow points from it to the 'Optional Info' table in the previous block.

For more information on the QOT module, please refer to the [QOT Module](#) Manual.

This is just another Part way we are developing ManEx with YOU in mind.

Sincerely,

David Sharp
