

ManEx Minute

Take a minute to save time with ManEx.

Dear Valued Customer,

Did you know that ManEx now gives you the ability to select not only the manufacturer part number on the PO, but also the supplier part number as well?

When placing a PO for a supplier that has its own internal part numbers that users have associated with the internal manufacturer, users are now able to select which supplier part number they want to use for that order.

This will help in receiving to verify any parts marked with the supplier part number.

For more information on the 9.3 Upgrade, please refer to the [9.3 update announcement](#).

This is just another way we are developing ManEx with YOU in mind.

Sincerely,

David Sharp
